KEY PROJECTS

BookLove - Online Book Selling Website

- Description: This is my personal project based on a small-scale e-commerce platform. Users can interact with the website through basic features such as: view the information of book, buy the book, pay the bill, view and edit the personal profile, etc. User data is stored into the database system and encrypted some key fields.
- Tech stack: HTML5, CSS3, Bootstrap 5, JavaScript, jQuery, NodeJS, ExpressJS, MongoDB, Heroku
- Github: https://github.com/vt-khang/BookLove
- Website: https://booklovevn.herokuapp.com

HOBBIES

Reading books, watching movie, listening to music
